AVIATOR **Smart Watch**
with additional Silicone band
AVSW9516**

AVIATOR
F SERIES

User Manual

Warranty

Your Aviator F Series smartwatch is made and tested to exacting standards. We warrant to the original consumer that the smartwatch will be free from defects in materials and workmanship under normal use for a period of two (2) years from date of purchase. During this period, the smartwatch will be repaired or replaced (at the sole discretion of Aviator F Series smartwatches) free of charge, if it proves to be defective in material or workmanship under normal use. This guarantee does not affect your consumer rights.

Water Resistance

Your Aviator F Series smartwatch is suitable for everyday use and can withstand perspiration, drops of water when washing the face and very small amounts of moisture in daily activities. Not suitable for showering, rainfall & any other water or water sport activities.

Service and Repairs under Guarantee

IMPORTANT-Not covered by Guarantee:
1. Batteries, straps and bracelets
2. Damage caused by accident, misuse, lack of care, natural aging, repairing or dissembling without authorization.
3. Water penetration (see Water Resistance).
4) Damage caused by connection with equipment which is not compatible.
5) Damage caused by conditions mentioned in page 3 under "Charging instructions", page 9 under "Know your device" and/or page 10 under "Battery".

If your smartwatch requires attention under the terms of the guarantee, please email your Retailer's Sales Receipt or Proof of Purchase, a photo of the completed Guarantee slip from this booklet (page 11 or 23), a photo of the back of the smartwatch, and a brief explanation of the fault to our service centre at aviator@laserworldwideltd.com. Once we have verified your details and proof of purchase, we will provide instructions on how to proceed with your warranty claim.

Introduction - Thank you for choosing our product Aviator F Series smartwatch AVSW9516**

Setting Up Your Aviator F Series Smartwatch AVSW9516**
The first step is to download and install the AVIATOR Smart F Series App in your mobile from the QR code on your box, watch or manual & create an account to sync the information.

IMPORTANT! Before using the smartwatch, please peel off the protective film from 3 places as follows -
1) front of the smartwatch   2) back of the smartwatch   3) top of the charging dock
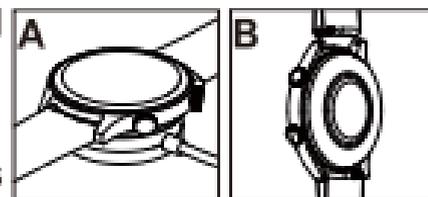

Charging Instructions
Charge your watch fully for the first time before use. Before every charge, clean the surface of the watch of any debris or foreign material to avoid interference in charging. Next, connect the back of the smartwatch to the magnetic concave side of the charger. After a few seconds, the display will light up and indicate the charging progress.
Important - 1) Do not use a USB charger other than the one provided with this Aviator Smartwatch to charge the smartwatch. Otherwise, the circuit and watch may be damaged and the watch will not be charged. This will void the warranty of the smartwatch & the charger.
2) Do not charge any other device besides the Aviator smartwatch with this charging cable as it may cause a short circuit and result in damaging the charging cable which will void its warranty..
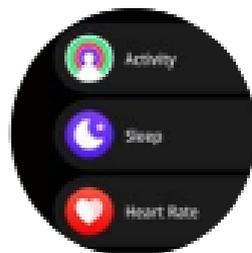

Easy Switch Strap (B)
The Aviator F Series smartwatch AVSW9516** comes with an additional silicone band. This smartwatch contains two parts (watch body & strap). You can replace the strap by pressing the ear switch at the back of the strap towards the right or left.

Pairing

1) Power on - Press and hold the lower button for 5 seconds until vibration.
2) Enable BT on your phone, then open the **Aviator Smart F Series** app > 3rd tab > Add Device
3) Select your Aviator smartwatch from the scanning list. Verify your device with the ID (XX:XX:XX:XX:XX:XX) and match it in your smartwatch Settings
   (Swipe down from the top of the dial display) ⚙ > About > Version
4) When a pairing request appears, confirm the matching pairing code (XXXXXX) on both devices (watch & smartphone) > Pair > Start.
5) If a pairing prompt does not appear within 15 seconds, connect it manually via your phone's BT settings as follows -
   a) Go to phone settings > BT > Aviator9516** > Pair/Allow.
   b) If not listed, activate it on your smartwatch > Control centre (swipe down from the top of the dial display), tap 🔲 to change it to 🔯. The watch
      (Aviator9516**) will now appear in your BT list. Select it to connect.
6) Pairing Complete.

Smart Watch Features

Menu - The menu (press the lower button) has an extensive range of features including activity (pedometer/ step counter), sleep, heart rate, phone call, exercise, exercise records, SpO2, blood pressure, stress, weather, messages, camera, player (music), relaxation, voice assistant, water reminder, stock market, timer, alarm, stopwatch, world time, flashlight, find phone, calculator, games and settings which include display (brightness, sleep, visual/ charging/ menu styles, watch faces or dials, wrist raise, cover lock), vibration, DND, low power mode, exercise setting, phone call (on/off, media audio, phone call reset), languages, system (restart, power off, reset) and about (version & App download/ QR code).

Blood Pressure Tap to start measuring your Blood pressure. The smartwatch & app can show the data of the last 7 times.

SpO2 Tap to start measuring your Blood Oxygen level. The smartwatch & app can show the data of the last 7 times.

Stress Tap to measure your current stress level. All-day recording can also be enabled in the App > 3rd tab > Others > Health > Stress Monitoring > on/off. Note: Enabling all-day monitoring will significantly reduce battery life.

Activity (Step counter) The smartwatch & app automatically tracks steps taken. Scroll down for the number of steps, kcal, minutes, day & week-trend. Note – stats reset at midnight.

Heart Rate Tap to measure your current heart rate. For continuous all-day monitoring, enable this feature in the app > 3rd tab > Others, where you can also set the measurement frequency. Note: This feature significantly reduces battery life. To set a high heart rate alert, define your maximum BPM limit in the app > 3rd tab > Others > Heart Rate Warning.

Sleep The smartwatch monitors the duration & quality of your sleep when you wear your device to bed. Note – Sleep stats record between 10pm and 8am and are reset to zero at 10pm.

World Time Track the time in up to 6 cities at once. Add your favourite cities in the App > 3rd tab > World Time > Add. To remove a city, swipe from right to left and delete.

Alarms Set alarms directly on the watch or in the app. The watch will sound and vibrate when the alarm triggers. You can set up to 8 separate alarms.

Exercise & Exercise Records Choose your sport from over 100 sports to start recording. The last training recorded will be shown on the watch & App main page (1st tab), whereas the exercise/ training records are shown in the 2nd tab.

Control Centre Swipe down from the top of the watch face to open. It shows the date, battery, sync icon (grey when disconnected). Quick toggles include: DND (do not disturb), battery saver, brightness, flashlight, media (phone 📞/watch ⌚), settings ⚙, quick view 🔍, alarm, find phone, silent mode, and camera. Tap "Edit" to customise the layout. *Settings include display (brightness, screen on time (sleep), visual/ charging/ menu styles, quick view and cover lock), vibration, DND, low power mode, exercise setting, phone call, languages, system (restart, power off, reset) and about (version & QR code for App download).

Stopwatch Tap the screen to start, pause, or reset. Records up to 20 laps.

Music
After connecting the device, control your phone music player remotely through the smartwatch. Turn this feature on/ off in the Control center (Swipe down from the top of the dial display) > Settings ⚙ > Phone call > Media Audio: on/ off. Alternatively, use 📞 > ⌚ in the Control center to transfer all audio controls to your smartwatch.

Camera
Use your smartwatch as a remote to take photos with your paired smartphone. To set up, open the App > 3rd tab > Camera. Position your phone for the shot. Open the camera on your watch to capture. Ideal for group photos or hands-free shooting.
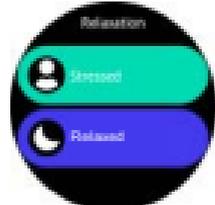

Messages
Swipe up from the bottom of the dial to view notifications from WhatsApp, X, FB, IG, WeChat, messages, emails and more. Note: Sync with the app to view the last 8 notifications.

Voice Assistant

Press the screen to speak to your phone's voice assistant. The screen icon will change to indicate it's listening. Simple replies like weather updates, are spoken aloud through the smartwatch. Detailed responses, including photos, appear on your phone. This requires Phone Audio to be on in your BT & smartwatch control settings for the speaker to work.

Relaxation

Use this feature to calm down and control your breathing. Choose between 2 exercises, Stressed or Relaxed and customize the duration from 1 to 15 minutes directly on your watch.

Water Reminder

Receive scheduled alerts to help you stay hydrated. Enable or disable this feature in the app > 1st tab > Intake Reminder > Settings ⚙. You can also log your water intake directly from the smartwatch to track your daily hydration.
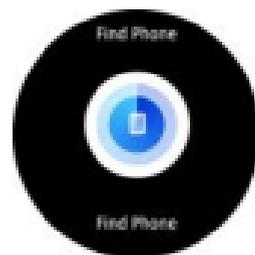

Reminders to Move

Receive vibration alerts at regular intervals to remind you to move. Note: Turn these features on or off in the app > 3rd tab > Others > Health.

Stock Market

Monitor your top 6 selected stocks or currencies in real time. To add an item, go to the App > 3rd tab > Stock Market > Add a stock. To remove, swipe right to left and delete.

Find Phone

Tap Find Phone on your watch to make your misplaced phone vibrate and sound an alarm. Tap again to stop.
Note: BT must be enabled on your phone for this feature to work.

Time & Weather

Select your city and temperature format in the App > 3rd tab > Others > Weather. Once saved, your watch's time will update automatically, and current weather plus a 7-day forecast will appear in the Weather feature.

Phone Calls (Swipe left from the right of the dial display)
Calls can be made and answered on the smartwatch. Turn this feature on/off in the Control Centre (swipe down from the top of the watch face)>Settings ⚙> Phone Call. Alternatively, you can also press 🔘 in the Control centre to manage all audio features like phone calls & music. If the calls won't connect, ensure the smartwatch is paired in your phone's BT settings. If issues persist, reset your smartwatch under Settings ⚙ > System, then pair again. Keep the watch close to your phone during setup and use.

SOS Emergency Help
1) To use this feature, turn it on in the 3rd tab > others > health > SOS Emergency Help.
2) Next in the "Settings" of your phone, find & click the Emergency SOS, then add a contact under Emergency contacts.
3) The watch MUST be connected to BT and the 🔘 turned on in the control centre.
4) In case of an emergency, press the lower pusher repeatedly 5 times. Your phone will automatically call the emergency number listed in your country, as well as send an sms with your location to your emergency contact if you have assigned them.

Personalize Watch Faces
Set a photo from your smartphone gallery as the default watch face via the App > 3rd tab > Watch Faces > Custom Faces > + > Photos/ Collections > select image > set as default. The download progress will show on your watch. Keep the watch connected to the app, close to your phone, and do not turn off any of your devices during transfer.

Customize Dial Elements
Edit the text, position, color, and pointer style on your dial. In the App > 3rd tab > Watch Faces > Custom Faces > scroll down to the bottom of the page > personalize the 4 widgets & style. Keep the watch connected to the app, close to your phone, and do not turn off any of your devices during transfer.

Dual Time Zone dials
Designed for the modern traveller, this face shows a second time zone alongside your local time. Stay informed and stylish, effortlessly tracking time in two places at once.

Cloud Dials
Download new dials from the cloud to refresh your watch style daily. Browse over 100 faces and apply your choice via the App > 3rd tab > Watch Faces > swipe right to the Face Gallery > select photo > Apply. Keep the watch connected to the app, near your phone, and do not turn off any of your devices during transfer.

KNOW YOUR DEVICE
1. Using in Wet Conditions - The smartwatch and its charger are sweat & splash resistant; and can withstand very small amounts of moisture in daily activities. **Do not wear** the smartwatch while showering, swimming, diving, scuba diving, surfing, in saunas, during in high-velocity sports, any water activities, in the rain or snow. Do not use the watch button when the device is wet.

2. Device Sensitivity - The smartwatch and its charger can be permanently damaged if they are:
- Dropped, bumped, or subjected to any impact.
- Exposed to liquids including water, rain, soap, shower gel, detergent, perfume, lotion, oil, or similar products.

- Used in high temperature, high humidity environments (e.g., hot baths, saunas).
- Exposed to hot steam, smoke, or vapors (e.g. from heaters, barbeques, grills, machinery, water heaters, geysers, etc).

3. Heat Exposure Do not expose the watch and its charger to direct sunlight or intense heat. (e.g. from heaters, ovens, microwaves, etc). Smartwatches & their chargers, like all other electronic devices are designed to operate within a specific temperature range. Prolonged exposure to extreme hot or cold temperatures can cause overheating or freezing.

4. ⚠️ Not suitable for children under 3 years. Small parts (detachable strap with small parts). **Choking hazard.**

IMPORTANT! Exposure of the smartwatch or charger to any of the conditions listed above may damage internal components and circuits, affecting their performance and safety. Such damage is irreparable and will **void the warranty.**

5. Quick View lets you see the time or phone notifications without touching the screen - just turn your wrist toward you. Turn this feature on/off either on your smartwatch > Control Centre (Swipe downwards from the top of the dial display) > ⟲ or in the App > 3rd tab > Others >Quick View.

6. Cover Lock Quickly lock the screen by covering it with your full palm for 1–2 seconds. Once locked, touch and swipe inputs are disabled to prevent unintended actions. This is useful when your screen could be pressed against clothing or skin, such as while wearing long sleeves, sleeping, exercising, or holding an object. Helps avoid accidental app launches, settings changes, or calls. Turn it on/off in your smartwatch Settings ⚙ (swipe down from watch face) > Display > Cover Lock.

BATTERY
> The battery percentage shown on your watch face is an estimate and updates in increments of 20% from 0 through 100%.
> Battery life varies depending on use similar to all battery operated electronic devices. Frequent use of GPS, notifications, and other power-intensive features will drain the battery faster.
> Do not use any USB charger other than the one provided with your Aviator Smartwatch. Using another charger may damage the device, prevent the battery from charging, and void your warranty.

ATTENTION!
> The smartwatch measurement results are for your reference only and are **not valid** for any medical purpose. Please follow your doctor's instructions and do not rely on the smartwatch for self-diagnosis or treatment.
> Some functions may vary from this manual depending on the software version installed on your smartwatch.
> We reserve the right to modify the contents of this manual without prior notice.

GENERAL SPECIFICATIONS
1. Environmental conditions
Operating temperature: 14°F to 122°F (-10°C to 50°C)·
Non-operating temperature: -4°F to 140°F (-20°C to 60°C)

2. Recycling & Disposal
It is the customer's responsibility to properly recycle and dispose off the smartwatch and its components. Do not dispose off the smartwatch with common household waste. It is electronic waste and should be taken to a local electronic equipment collection facility. For more information, please contact your local electronic waste management authority or the retailer where you purchased the product.
